# Ideas for Section 8: Conclusions #33

Closed

Some of what we'll say in Sec 8 will depend on what we conclude from our big table in Sec 7, but I wanted to get the conversation started for how we might bring this thing in for a landing:

8.1 - Discussion

- recap main findings. Not sure if first sentence will line up or not. Discuss implications, excitement, and flexibility of approaches.
- I like the reference back to Nolan and Temple Lang
- the current last sentence in paragraph 1 won't work since St. Olaf's course (and others?) is a required part of the new major, not an elective

... (discussion among collaborators) ...
